

 **AFFINITY**
TRAVEL DIFFERENT

ENJOY THE SPACE

The Affinity Camper Van provides a comfortable living area for four people, two adults and two kids or teenagers. Based on 636 cm long, 210 cm wide and 280 cm high panel van it has been designed to provide a distinctive amount of space inside.

A unique layout, large skylights, pleasant and indirect lighting, soft materials and neat furniture colors combined together create a homey and spacious interior.

COMFORT YOURSELF

Welcoming and wide entrance through the sliding door leads to a roomy space in the middle of this camper van.

The L-shaped kitchen with decent worktop, integrated shower cabin, cosy dining and bedroom areas make the Affinity Camper Van a truly comfortable recreational vehicle.

FEEL LIKE HOME

Spending time inside a motorhome is often the very last thing travelers want to do.

When you travel with Affinity Camper Van, staying inside is no longer a burden. Comfortable seats and beds in a pleasant environment will really make you feel like home.

SLEEP WELL

The beds inside Affinity Camper Van are the biggest innovation. The passenger bench converts into a solid double bunk bed. Both upper and lower levels are easily accessible.

The main, French bed not only slides away but it also lifts electrically. Already large boot becomes big enough to carry two normal-sized bicycles when the bed is in its upper position.
